#### The Eldredge Two Spool Rotary Sewing Machine

THE GOAL OF HALF A CENTURY IS ACHIEVED

For fifty years and more, the Two Spool Sewing Machine has been the dream and goal of inventors, and large sums of money have been spent in unsuccessful efforts to produce it.

After years of patient, unflagging work, the manufacturers have overcome seemingly unsurmountable obstacles and have finally produced the Eldredge Two Spool-a thoroughly practical and entirely satisfactory sewing machine, that sews direct from two spools of thread.

The Eldredge Two Spool Sewing Machine eliminates bobbins and saves the time consumed in winding and in removing and replacing them. In particular, this feature will be appreciated by dressmakers and busy housewives, to whom the time saving effected is of vital consideration.

See Machine in our window Let us show you the Sew-E-Z Motor
